

mQuvée

WineCave 700 40D *Under-counter wine fridge*

Energy-efficient wine fridge from mQuvée! The wine fridge is designed for easy built-in installation beneath the kitchen counter and the door fits flush with the kitchen cabinet doors for an elegant and seamlessly integrated look. Its sleek design works beautifully in any type of kitchen.

The wine fridge has two temperature zones and five slide-out wooden shelves with space for 29 bottles. The digital display makes it easy to select the temperature and interior LED light settings you want. The wine fridge has an inverter compressor that operates at a quieter, more uniform sound level, consumes less energy and enables faster temperature recovery.

Specifications

Product type	Built-incooler	Surface	Adjustable feet
Product series	WineCave	Feet adjustment height (cm)	7
Brand	mQuvée	Carbon filter	Yes
Noise level (dB)	36	Cooling system	Compressor
Number of Bordeaux bottles	29	Temperature zones	2
